

Regional Delegate Report 9-16-17

Good afternoon and thank you as always for allowing me to be of service. Not much has occurred since we last met. There was a poorly attended zonal virtual meeting on August 27th where we did not conduct much business or move forward with any topics to bring back to our regions due to our lack of participation. I did however bring this regions conscience to the virtual meeting space allowing the delegate team to conduct business virtually if need be. I was a bit concerned over the lack of participation from other regions simply because (NAWS) would like us to move forward with trying to meet virtually. Poor attendance completely stopped that from happening; I shudder to think of the ramifications of poor attendance if we were voting on CAR/CAT issues.

There was a letter from NAWS addressing the FIPT from the South Florida region. Rather than outline the deconstructive nature of NAWS response I will leave the document available for your personal review or you may simply ask me after I present my report. Personally I must say I am quite disappointed by NAWS' dodgy legal-speak response.

Our next service commitment will be the NEZF 10/27-10/29 at the Renaissance Woodbridge Hotel, Iselin NJ. There will be a WB member present (MaryBeth) to facilitate the future of the WSC workshop. I am requesting \$1,250.00 in disbursements for this trip. As always, thank you for this opportunity to be of service to my region.

In Loving Service,
Stephen R. Dysert
