

W. N. Y. R. C. N. A regional delegate alternate report

Good afternoon. I had the opportunity to attend the NEZF in Syracuse NY with the RD. As you may know, most of the discussion revolved around the SSP and regions sharing ESH in regards to using some of the practices at their local levels. On Saturday we were given a presentation from the Patterson New Jersey area experimenting with the SSP. the areas presentation was exciting to say the least and some of the positives I took away from the presentation was the level at which the group was allowed to work with other groups (GSU) this level encouraged home group members and experienced members the opportunity to get involved in group matters.

Later on the after noon we also learned the the finger lakes area is also experimenting with the GSU before their scheduled ASC. It has been well received also. After the NEZF the RD and I put on a workshop for the proposed SSP in the NI-O area. Attendance was small but as I walked into my home group the following Tuesday I observed the GSR in the middle of the room passionately discussing the workshop to my fellow home group members! I am looking forward to more workshops in the region with the RD. I apologize for my absence, I had my flight times confused and I will be leaving for Florida earlier than expected. Ill see all of you in May
In Loving Service
